17	4 trains with coal	
17	1 train of empty tank cars	
18	9 trains with coal	5 trains of empty cars

Comment. As compared with the last reported period, the daily average of westbound
trains passing through Forst rose from 3 to 8.2, and the corresponding average of
eastbound trains increased from 3.5 to 4. The heavy increase of westbound traffic was
caused by the larger volume of coal deliveries from Poland.
